Presentation Tips

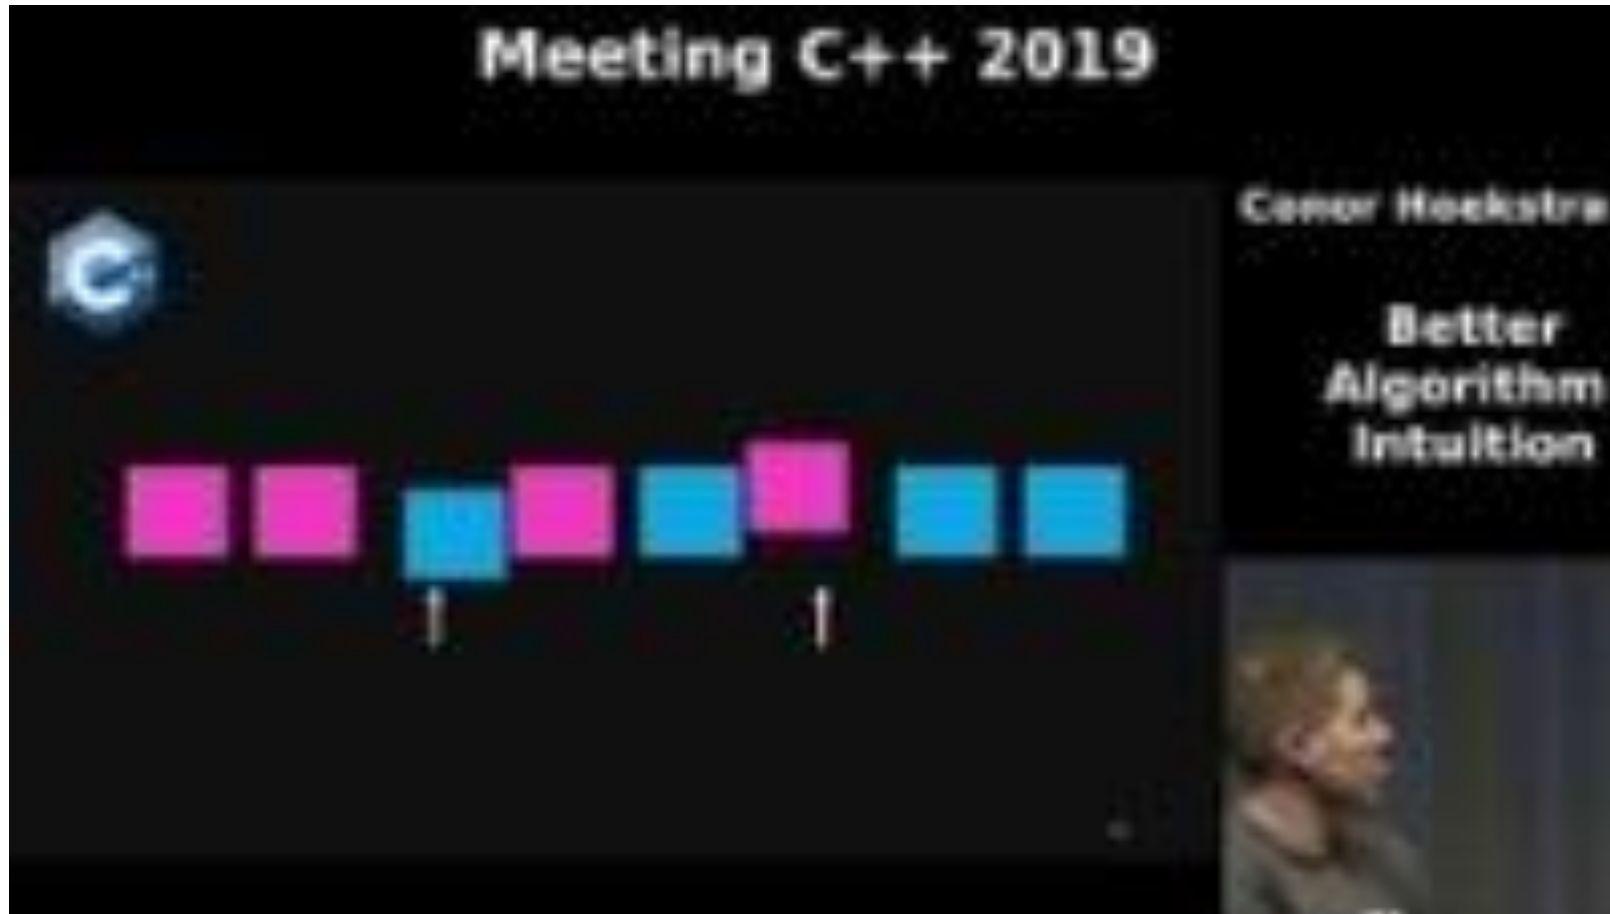

Constructing a Presentation

- Know your audience (you can choose for this course)
- Know the space and expectations (test projector, know time limit)
- Use your own style(s)
- Don't read or recite, try to be entertaining
- Know how you are being evaluated
- Give a strong introduction/hook/lead
- Support your statements
- Summarize your key points

Example Rubric

- Presentation is clear and follows a coherent story.
- Presentation media is easy to understand.
- Teammates present equitably.
- Presenters are poised and lively.
- Presenters are prepared to answer questions.
- Presentation duration is within the expected range.
- Presentation includes three discussion questions.
