

# CS140 - Group Assignment 4

Due: Friday, Sept. 23 at 11:59pm

- If your group meeting is before the checkpoint, use it as one last chance to ask questions. In the more likely event that it's after the checkpoint, talk about the checkpoint problems.
- *On Gradescope you should each turn in a separate response to the following questions.*

## 1. Post-Checkpoint reflections

With the first checkpoint completed, do you think you'll approach preparing for the second checkpoint differently and, if so, how? What about how you approach learning the material in the class?

## 2. Group participation

Were you at the entire group meeting this week? If not, why not?

## 3. Group experience

How well do you feel your group is working together? Do you have ideas on how to make the group meetings more effective for helping you personally learn the material?
