Kosaraju's Algorithm

G $G_{reversed}$ $G_{relabeled}$
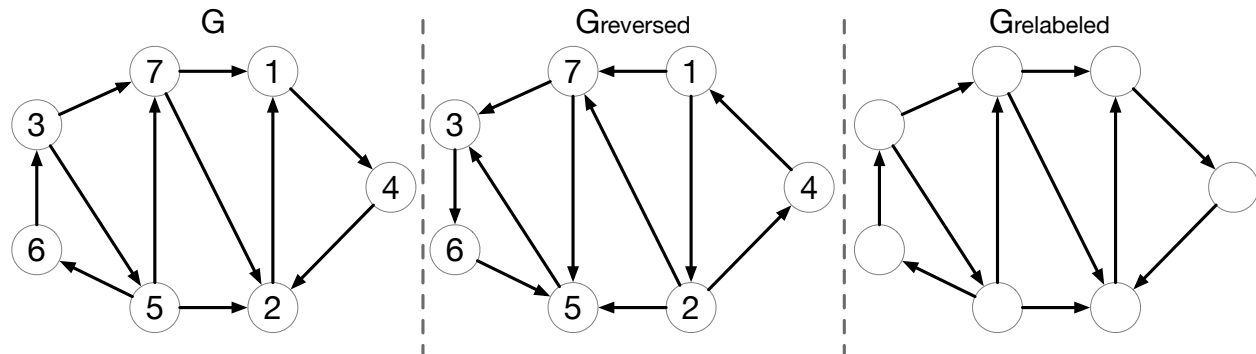

Use Kosaraju's algorithm to find the strongly connected components (SCCs) in the graph above. You should step through the algorithm and note the label and leader values. Use the space below and the back (if needed) to show the call stack.

Labels (first pass)

1	2	3	4	5	6	7

Leaders (second pass)

1	2	3	4	5	6	7
