

CS181DT Class 21: Guest lecture

- Teacher for today: Eric Rawn (he/they), PhD student at UC Berkeley
- Also one of my collaborators - co-authored next week's RR!
- Announcements
 - System diagram due Fri 11:59pm
 - Your last RR + PM6 (materials) due Monday

How can we help you?

- Despite anxiety about implementation, attendance has not been great at the “extra help” events outside of class time (code party, Figma workshop, MusicMap walkthrough)
- What barriers are you facing to attending? Is it the election? Is it just life this semester? Is it something else?
- Please let us (anonymously) know so we can better help: <https://forms.gle/ycfRHXZvmdrah3dw7>
