CS181DT Class 25: final in class evaluation

Class 25 agenda

- Zipcrit x 2

- Announcements: alumni can be your testers, P2 logistics

- Evaluation!

Project presentations

- Wednesday

- 8 min presentation, 3 min Q&A. Upload slides to Canvas. Include:

  - motivation & design goals (2 min)

  - walkthrough of design process and iterations (1.5 min)

  - interactive audience demo with audience participation (3.5 min)

  - evaluation results (0.5 min)

  - limitations/future work (0.5 min)

Proj deliverables

- Next Mon 11:59pm (Dec 9)

- **Video:** kind of like your presentation (with motivation and design goals), but a screen recording "walkthrough" of your tool showing every feature

- **Short research paper**

- **PDF documentation**

- **Code itself**

- Self & peer assessment

Evaluation

Final evaluation

- 5 min to plan with your team: What is the task you're going to ask users to do? Do they have any free form exploratory time? If you want to do a quick post-interview, what questions do you want to ask? (Recall you started doing this in the evaluation class)

- Make sure to write down data collected such as # of participants, participant quotes, likert ratings, etc.

- Prioritize getting as many participants as possible

  - If you finish before the prep time is over, raise your hand if you want me to sanity check your evaluation criteria
