

# CS 51P – Fall 2023

## Lecture 05

1. Write a program that prompts user for a password, repeating until the correct password is entered, then prints "Login Successful".
2. Using a while loop, write a program that asks the user for word and a number, then prints the word followed by ! that many times, each on its own line.

3. Using a while loop, write a program that asks the user for a positive integer and then prints the sum of the odd values between 1 and n.
